

# Dahlstrom's Strike Status Unchanged

The strike of more than 600 members of UE Local 307 at Dahlstrom Metallic Door plant went into its 21st day today with the date of the next negotiation meeting unknown.

Wage re-opener talks between the union and company broke off last week. Federal Conciliator Clarence LaMotte of Buffalo indicated Saturday he may return to Jamestown Wednesday in an attempt to schedule a meeting.

Union demands are for a general wage increase, company-paid insurance plan and two additional holidays a year.
