Dowcraft-Ellison Officers

In a recent *Tempo* story on Ellison Bronze Co. of Falconer, the names of James E. Graves, who is president of its parent firm, Dowcraft Corp., James G. Streib, vice president of production at Ellison Bronze, and Weldon M. Nelson Jr., vice president/finance and secretary/treasurer of Dowcraft and Ellison Bronze, were inadvertently omitted. Johnson Machine & Fibre Products Co. of Jamestown and Universal Tooling Corp. of Gerry are involved in some of Ellison's machining operations. The Falconer firm is a major supplier of balanced doors to buildings in the Macy's Department Store chain.
