

## 500 Go on Strike At Fancher Plant In Salamanca

SALAMANCA (P)—About 500 production employes of the Fancher Furniture Co. struck today in support of wage demands.

The employes are represented by Local 3194 of the Brotherhood of Carpenters and Joiners. Fancher is Salamanca's largest industry.

The union's old contract with the company, which has three plants here, expired Feb. 15. But had been extended through midnight last night pending negotiations.

Neither the company nor the union would discuss the issues and the old wage scales were not available.
