Railroad Excursion

Weekend excursions between Gowanda and South Dayton are regularly featured on the New York & Lake Erie Railroad. During a 30-minute stop at the South Dayton station, above, passengers can explore the diesel engine, take photographs, visit a Christmas craft store, rest in the village park or have a snack. Shown doing the latter recently were these passengers at left, brothers from Buffalo, Paul Kain, 9, and Kevin Kain, 11. In between bites they said it was their first train trip.
