

JOURNEY'S END—Gully one mile from home of Lt. Levine Nelson, 22, Blockville, where he and four crew members of B-24 Liberator died Saturday in flaming wreckage a few moments after they circled to salute parents. Four others were injured, one critically. Part of wing rests near tiny creek as gasoline-drenched wreckage burns in background. Picture was taken shortly before gas tank exploded and after four still alive were removed to safety. Other pictures, story, Page 9.
