## **ANNOUNCEMENT.**

In this year of prosperity and adversity, of joys and sorrows, we again extend to you our heartiest greeting.

The publishers of this edition of the Jamestown Directory unhesitatingly place the same before you as the nearest to a perfect Directory that has ever been published of this city. We have spared neither time, trouble nor expense in the production of this work; and while we have been treated with the greatest courtesy by the public generally, in special cases we have been obliged to exercise our utmost sagacity to obtain names herein.

This issue contains a list of 9,800 names, an increase over our edition of 1895-96 of 347 names, showing a population of 26,950, and an increase in population of 955 on a basis of  $2\frac{3}{4}$  to the name, or a population of 24,500 on a basis of  $2\frac{1}{2}$  to the name, which is a very conservative estimate.

### **THE A. D. SHARPE CO., SELL SILKS, VELVETS, ETC. 203 MAIN**

These figures indicate that Jamestown has been gradually and steadily growing during the hard times that have affected the country generally. We may well congratulate ourselves upon this condition, for many of Jamestown's sister cities have been decreasing or remaining stationary in population.

That our business men are actively engaged in competition for business and prepared to serve their customers with the best and cheapest, may be learned from a glance at our advertising pages; that our manufacturers are actively employed is testified to by the many whistles that resound through the air and the hundreds of dinner pails that are carried through the streets each day.

Trusting that this edition will be received with the same favor which has been accorded to its predecessors, and thanking our patrons for their support, we are, very cordially yours,

WHITE BROS.

**Irvine, Warren Co., Pa.**

**T**HE growing tendency among Americans is to patronize health resorts when for any reason they feel run down. They find that physical and mental rest in some spot especially favored by nature as to climate, air and natural waters, is better than any medicine. **Such a place is Allegheny Mineral Springs.**

The springs are located about two miles from the Allegheny River, in Western Pennsylvania, at an elevation of 1,600 feet above the sea.

Its location is such that it is free from surface drainage, and therefore pure at all seasons and in all conditions of the weather. The waters of the Sulphur Springs have been used for many years with marvelous results, in the cure of all chronic diseases, and especially for Bright's Disease, Diabetes, Rheumatism, Nervous Troubles, Dyspepsia, Catarrh, Bronchitis, Incipient Consumption, Chronic Constipation, and allied affections.

The surroundings are romantic and wild; the hills being covered with a dense growth of pine and full of beautiful flowers.

The high altitude and the fragrance of the pines make the atmosphere particularly desirable and beneficial for lung and bronchial affections. The precipitous hills hold no swamps, consequently there is no malaria.

Furnished cottages may be secured for families, (table and bed linen and silver excepted,) on application at from **\$4 to \$8 per week**. Special rates by the month or season.

To make this a quiet, home like, restful retreat for the invalid and the over-worked, will be the constant endeavor of the management.

**We Have the Best Mineral Water Found in the United States.**

An analysis of the water, bottled and hermetically sealed at the Spring, and sent direct to Dr. Genth, of the University of Pennsylvania, reads:

The water is from the Sulphur Spring, two and one-half miles southwest from Irvineton, Warren County, Pa., and contains in 1 gallon of 231 cubic inches, as follows

|                        |         |
