We congratulate the citizens of Jamestown upon the material advancement and growth of the city. This issue of the Jamestown Directory contains a total of 9,453 names, an increase over the number given in our edition of 1892-3 of 1,100, showing a gain in population of 3,025, and a total population of 25,995, computed on a basis of 2¼ persons to the name. Computed at 2½ to the name, our present population would be 23,632.

The steady increase in the size of the Directory with each succeeding issue, requires a large increase in care, labor and expense, and that errors have occurred in so great a number of names is probable, and that names have been omitted which should have been inserted is quite certain; we can only say that we have exercised diligence and care in this work, and have Largest Dry Goods House in Western N. Y. SHARPE'S. spared no effort to make it as nearly complete as possible.

One great obstacle that we have met with in our canvass of Jamestown is the extremely defective numbering of houses and naming of streets. There is hardly a street in the city that is accurately numbered, and many of them are in a state of chaos, while numerous streets are as yet without a name. We respectfully recommend to the citizens of Jamestown that they take this matter in hand and see that their residences are correctly numbered, and that the Common Council see that the streets are properly named.

Thanking the public generally who have kindly aided our canvassers in collecting the names and other information for this work, and especially our patrons who have favored us with their advertisements and subscriptions, we are, very respectfully,
