

## Databases for kids available @ prendergastlibrary.org

All children's databases are located in the Education Databases which can be found by going to **Online Resources** along the library's top menu, and clicking on **Databases**.

**Kids Infobits** has a child friendly layout and offers accessible topics for younger readers. Articles are labeled with their reading level. Available in the library and at home; need to be in New York State.

**Age range:** Grades K - 5

---

Britannica's **Explora** database is a user friendly database that offers content from magazines and reference sources to help students plan their research and to prepare for projects. Available in the library and at home, requires a Prendergast library card for remote use

**Age range:** Grades K - 5

---

**Britannica School** is divided into levels for Elementary, Middle, and High school students. This resource includes curriculum-relevant articles, images, audio and video clips, recommended websites, and more. Available in the library and at home, requires a Prendergast library card for remote use

**Age range:** Grades K - 12

---

**Britannica Escolar** is similar to Britannica School. However, this data base is entirely in Spanish, for students that are learning Spanish and those that speak it fluently. Available in the library and at home, requires a Prendergast library card for remote use

**Age range:** Grades K - 12

---

**Opposing Viewpoints in Context** offers multiple perspectives on today's social issues. This resource helps students research and analyze a broad variety of data to complete writing assignments, prepare for debates, and more. Available in the library and at home; need to be in New York State.

**Age range:** Grades 5 and up

---

**Research in Context** combines Gale's reference content with age-appropriate videos, newspapers, magazines, primary sources. The interface is geared at younger students, with more complex content appropriate for middle school curriculum. Available in the library and at home; need to be in New York State.

**Age range:** Grades 6 and up

---

**Britannica Academic** provides reliable sources for higher-level research. This database is for high school and college students. Available in the library and at home, requires a Prendergast library card for remote use.

**Age range:** Grades 7 and up

---

**Educator's Reference Complete** is a data base for educators and people studying in the Education field. The database provides full text articles. Available in the library and at home; need to be in New York State.

**Age range:** Grades 9 and up
